**O R D E R:-**

It has been brought to the notice of the Government that the A.P.State Seeds Development Corporation Limited(APSSDCL), A.P. Hyderabad has faced problems of reduced yields from the multiplication of BPT 3291 Breeder seeds of Paddy received from R.R.U. Bapatla during both Kharif-2009 and Kharif-2010. As a result, the APSSDCL could not supply required quantities of certified seed of the said variety during Kharif-2011 to the farmers in the State. The problem of differential flowering is not attribute to poor farming practices but is logically due to seed defects and the problem is widespread, covering several districts where production is taken up.

In view of the above, Govt. after careful consideration hereby appoint Sri N.V. Ramana, Joint Director of Agriculture O/o the Commissioner & Director of Agriculture, as Enquiry Officer to enquire into the matter and submit the report within a week to Government.

**( BY ORDER AND IN THE NAME OF THE GOVERNOR OF ANDHRA PRADESH )**
